## **Butler County Medical Society Foundation Medical Scholarships**

### PRESS RELEASE

The Butler County Medical Society Foundation recently granted \$1000 scholarships to two Butler County residents who are enrolled in medical school.

The scholarship recipients were:

Stephanie Clark of Hamilton, a 4th year student at the University of Toledo

Margaret Clark of Fairfield Township, a 2nd year student at Ohio University

Scholarships are awarded annually to residents of Butler County who are enrolled in an approved medical school. Scholarship funding is obtained from donations to the BCMS Foundation.

The scholarships are intended to assist these students with the high cost of medical school and hopefully inspire them to practice in Butler County upon completion of their education.
